

CALL FOR APPLICATIONS

Undergraduate Research Grants in Computational Modeling and Data Analytics

Students majoring in **Computational Modeling and Data Analytics** are eligible for CMDA Undergraduate Research Grants to support CMDA-related undergraduate research with faculty from Virginia Tech. Students can apply for up to \$1,500 in support, which can cover expenses for conference travel, software or computing expenses, or wages paid to the student.

Students interested in this opportunity can apply for research support in Summer, Fall, and Spring. The deadlines are April 15 for Summer research, August 1 for research during the Fall semester and **December 15** for research during the Spring semester. It is possible for a student to get more than one scholarship in a given year.

The submitted application package must contain:

1. A completed Application Form signed by both the student and faculty member.
2. A short (less than one page) description of the research project and explanation of the use of funds. If the research project will be taken for credit, make that clear in the application. In this case, the Undergraduate Research / Independent Study form for the college of the student's primary major needs to be included. If the student's primary major is CMDA (or otherwise in the College of Science), the form can be found on the [College of Science Student Forms Web Page](#).

The application package should be sent electronically to Amanda Shephard, Academy of Integrated Science (MC 0563), Hahn Hall South Suite 2108, 800 West Campus Drive, Blacksburg, VA 24061, email: amandabs@vt.edu.

With best regards,

Mark Embree

Director

Computational Modeling and Data Analytics program

**Application for
CMDA Undergraduate Research Grant**

Student Information:

Name: _____

Current Primary Major: _____

Secondary Major (if applicable): _____

VT Email address: _____

Title of Project: _____

Student Signature: _____

Faculty Member Information:

Name: _____

Department / College: _____

VT Email address: _____

Statement on how the scholarship funds will be used to support the student's
research: _____

Faculty Member Signature: _____
